

# Policy Framework

## ARNBC Policy Strategic Goal

To advocate for evidence informed policies to promote the health and healthcare of British Columbians.

### Objectives

1. Take a leadership role in the development, monitoring and refinement of policies.
2. Foster collaborative relationships with government health authorities and other bodies to enable efficacious responses to evolving and immediate policy issues.

### BOARD IDENTIFIED POLICY PRIORITIES:

### PROCESS:

1. **Evidence-Informed Research:** Review of academic and grey literature, policy analysis and synthesis.
2. **Stakeholders:** Consultation with nursing expertise in all domains of practice including education, policy, administration, clinical practice and research, specialty groups, communities of practice, ARNBC partners, government, patient advisory groups, Health Authorities.
3. **Engagement:** Webinars, policy forums, regional forums, focus groups, surveys.

### OUTCOMES:
